Manitoba Director's Report
AGM, October 29th, 2022

Hello from Manitoba,

Manitoba had our AGM, on May 14th, 2022 via Zoom… and all went well. Elections for Treasurer, Secretary, Provincial Education Co-ordinator and one Director at Large occurred with only one change to the board with a new Treasurer. I made my report and reminded the members about the end of the current triennium and the changes coming in 2023 for CEU requirements. I also gave the dates for CCC, the CSCT Education Day and the AGM in October 2022.

Our Treasurer has reported that overall the dues drive on the new web platform rolled out very smoothly, except for a few hiccups with members who had changed their email addresses since the web change over and with student membership cards not being generated, which was sorted out and working fine now. This year we are going to have a dedicated campaign to introduce our Associate Membership level, targeting our retired members. We are looking forward to capturing this important group of people and give them an opportunity to keep in touch and volunteer on a committee if they want.

Our board is communicating to the health regions regarding staff shortages and providing some suggestions for solutions to this by hiring students before other allied health professions and to promote Stenberg and BCIT programs to potential students.

Respectfully submitted,
Colleen Bemister RCT,
Manitoba - CSCT Director

List of MACT BOD as of May 15, 2022
