Newfoundland & Labrador

**CSCT Newfoundland & Labrador Director's Report  
CSCT Annual General Meeting 2023  
Montreal, QC**

The CTAN annual general meeting was held virtually on September 25th, 2023. A survey was sent out earlier in the summer in which members indicated that it is easier to attend virtual meetings, although it is still possible that we may have in-person or hybrid meetings in the future.

Legislation was another topic in the survey, with the majority of respondents indicating they would like to see the association pursue this. There was a small committee formed in the past to look into this but it didn't go very far. It is our goal to create a new group to start looking into the process again.

The board will continue to work on updating our bylaws to ensure they align with the CSCT bylaws.

Respectfully submitted,  
Megan Willette, RCT  
NL Director

**CTAN Board of Directors**
