

CTANS Director's Report

Virtual Meeting – October 16, 2021

Greetings,

Cardiology Technologists Association of Nova Scotia held its AGM May 2nd, 2021, via Zoom. The virtual meeting was very successful with 75 percent of members in attendance. During this AGM we elected new executive board members to various roles such as Tonya Morrell as our President, Alicia Drew, as our Secretary, Lindsay Nicholson as our Vice President, and Myself as Webmaster. We want to thank Ashley Samms, Sarah McLean and Michael Roach for all their hard work on the board over the last few trienniums.

During our AGM, we discussed ways we can work towards achieving legislation and formed a legislation committee made up of members across the province and PEI. This committee will have meetings throughout the year to review ways we can collect evidence to bring forward to the provincial government.

We hope to return to in person (non-virtual) meetings in Spring 2022.

Regards,

Brittany Marsh, RCT

Director and Webmaster of CTANS
