

Manitoba CSCT Directors Report

AGM – October, 2021

Greetings from Manitoba,

The MACT held its Annual General Meeting virtually for the first time on May 1st 2021. Our President, Linda McLean, worked really hard on an excellent power point presentation and figuring out all the various polls, screen sharing and other features on Zoom to have a smooth experience for our members. Thanks to Crystal for lending us the CSCT Zoom and giving Linda pointers. All BOD positions were filled with a few new names as well as some previous members. We welcome our new board members with their energy and new ideas.

With votes on resolutions we successfully raised our active membership dues, reduced our inactive and student membership dues and added an associate membership (with a \$25 annual fee) for retired or past members who do not intend to work in the field again. We have many members who would still like to attend social events/educational sessions and support our association, but don't want the expense of an inactive membership.

I am looking forward to see our new Wild Apricot website become developed and used to it's full potential as well as working with our new committees on social media/PR initiatives and keeping our bylaws and policies updated.

Hopefully we can meet as a BOD in person in the very near future. It has been a long an exhausting year but things are looking up and being a resilient bunch, we will move forward and get things done for our members and profession.

Respectfully submitted,

Colleen Bemister RCT

Manitoba Provincial Director
