

President's Report

As I finish my term as President, I could not help but reflect on what we have all been through over that last year and a half and all the changes we had to make some positive and some not, using our resources to allow members to attend our AGM.

We have been able to move to an online proctoring company for our exam saving exam candidates having to travel in order to challenge the national exam. The Canadian Cardiovascular Congress changing to a virtual format has been great giving members who can not travel the opportunity to be involved is some amazing educational opportunities. But we have lost the networking we used to get to do with an in-person conference which I enjoyed so much getting to meet members. I am hopeful that days when we get to go back to see each other are just around the corner.

Since our last AGM in March, we have completed our new database project with the provincial association. This database will help members easier access to pay their dues, submit CEUs and check their membership status.

Thank you to the Board of Directors, the Executive, CSCT Secretary and CSCT Registrar. Without you beside me every step of the way I would never have been able to accomplish everything we do! Your hard work and dedication to our profession is greatly appreciated.

Thank you to our exam committee who work tirelessly to make sure our exam is successful.

Thank you to our a CCC Education planning committee. I am excited to see all the great speakers next week.

Thank you also to our PR committee, for keeping our members engaged and informed. This has definitely been a step forward for a as a society.

As I am beyond honoured to be nominated for a 3rd term as president, I am excited to announce we have some big changes coming soon. Once all the details are finalized, we will let you all know!!!

Enjoy the rest of our meeting and continue to stay safe in our crazy world.

Respectfully Submitted

Crystal Shendaruk

CSCT President
